STEPHANIE MCGEE AZAR  
Acting Commissioner

March 11, 2021

***“Alabama One Health Record® (ALOHR) assists hospitals, clinics and care networks to achieve compliance with the Patient Event Notification provision of the CMS Interoperability and Patient Access Final Rule through its ALOHR Patient Notification & Event System (ALPINES). ALPINES receives Admission, Discharge, & Transfer (ADT) messages from hospitals in real-time, then generates appropriate event notification alerts of encounter, admission, transfer or discharge to downstream recipients. The alert recipients include PCPs, Care Groups, ACOs, ACHNs and Care Managers. The transportation method and frequency for the event alert notification is determined by the intended Receiver’s preference and capabilities. Transportation methods include via Direct Secure Messaging as well as pass-through of the electronic ADT notifications to other Health Information Management Systems. ALOHR’s list of current subscriber’s references for ALPINES include the Alabama Medicaid Agency ACHNs, Medicare ACOs, and other provider networks.”***
