

Promoting Interoperability Programs

PY2019 Objective 6 and 7 Update

The Medicaid Promoting Interoperability specification sheets for EPs have been updated. Specifically, Objectives 6 and 7 were updated to clarify the requirements for meeting those objectives with the following language:

- An EP must attest to all three measures and meet the threshold for two measures for this objective. If the EP meets the criteria for exclusion from two measures, they must meet the threshold for the one remaining measure. If they meet the criteria for exclusion from all three measures, they may be excluded from meeting this objective.
